Transform disabilities into abilities.

is the original and most sought after multi-day charity bike ride in Israel. Participants are attracted by the special children of ALYN Hospital who are the sole beneficiaries of the event and by the limited spots, the variety of riding levels and annually changing routes. The ride is a moving caravan of hope, spirit and camaraderie. The generosity of our sponsors makes it possible for ALYN to do what it does best ~

WHEELS OF LOVE

where the impossible is
POSSIBLE!

ALYN Hospital is the *only* facility of its kind in Israel and is a world leader in the active and intensive rehabilitation of infants, children and adolescents. Our patients live with physical challenges and disabilities such as motor, cognitive, communication and behavioral problems. We treat children whose conditions are a result of brain and spinal cord injuries (caused by car and domestic accidents and acts of terror), congenital or progressive muscle deterioration and nerve and bone diseases (including spina bifida, cerebral palsy, muscular dystrophy, etc.). Patients come to ALYN after suffering severe burns, undergoing orthopedic or neurosurgical procedures (including the removal of benign or malignant brain and spinal cord tumors), and for treatment of respiratory insufficiency and feeding disorders.

where disabilities become **ABILITIES!**

ALYN Hospital receives no automatic government funding and only a portion of each child's care is reimbursed by Israeli health insurance. The staff at ALYN combines expertise with love to empower physically challenged children to reach their highest possible levels of mobility and independence. The multi-disciplinary rehabilitation takes place in the Active Rehabilitation Unit, Respiratory Rehabilitation Unit, unique Day Care Center, Independent Living Neighborhood and specialized Out Patient Clinics.

where the ordinary is
EXTRAORDINARY!
